THE CITY.

PITTSBURGH, Pa., Oct. 14, 1901. The banks in this city are receiving the notes of all the banks in Pittsburgh on deposit, they having resumed specie payments.

MURKIN STREET SEWER.—This sewer has been completed as far as Brown street, and the work suspended for the present season. The workmen left the work last evening.

EAGLE STREET SEWER.—The Eagle street sewer is fast assuming shape again. Messrs. Williams & Southworth, the contractors, with their accustomed energy, have nearly repaired the damage done by the severe rains of the past week.

NOTICE.—The Fugitive Aid Society will hold its regular monthly meeting on tomorrow afternoon, at the Methodist church on Delaware street, at half-past three o'clock. The Rev. Mr. Wright of the Erie Street Methodist church, will address the Society. The public are hereby invited to attend.

CLEVELAND CONFERENCE.—The Cleveland Conference of the Congregational Church will meet at Pendleton on Tuesday next, at 7 o'clock P. M.

Delegates from Cleveland will take the 2:30 train and stop at La Grange where carriages will be in waiting.

PERSONAL.—We regret to learn that Brigadier Surgeon George H. Oliver, attached to Gen. Rensselaer's Division, has for several days been quite ill at the Soldiers' Home. He has, however, so far recovered as to be able to proceed to day on route for Western Virginia. Surgeon Oliver has won the esteem of those who have called upon him during his limited stay in our city, and bears with him their kindest wishes.

SOME GRAPES.—Mould & Hogan, corner of Public Square and Euclid street, received over twenty-five hundred pounds of choice grapes yesterday. The system adopted by this firm of putting up grapes in five-pound boxes for family use is being fully appreciated by the public. Their daily sales are enormous.

LEWIS AND CLARK CAVALRY REGIMENT.—Major T. M. Stump left on the Lake Shore train this morning with twenty-five recruits enlisted in this city for the 2nd Cavalry Regiment, Col. G. A. Malika, organizing in New York. They are all Germans and a fine body of men.

SIXTH CAVALRY REGIMENT.—Cleveland, Ohio, Oct. 12, 1901. Messrs. Editors:—I wish through the medium of your paper to say a few words to the public concerning the 6th Cavalry Regiment, which Senator Wade and I are authorized to raise, under the authority of Gov. Denison of Ohio. I have just received a letter from the United States Quartermaster at Cincinnati, that our tents and camp equipment cannot be sent before one week from this time. I must say, with alacrity, that I have met with unexpected embarrassment in my efforts to obtain near Warren, suitable grounds where men can be made comfortable in camp during the approaching inclement season of the year. Men need some buildings to protect them in part from November rains and snows. Such places can be obtained at some convenient point on the Western Reserve. The Capitol at Washington and State House at Columbus have not been regarded too sacred or good in which to quarter the volunteer defenders of our institutions. No objection to such use has been made by any except Jefferson Davis and his adherents. They have filled the ears of the public with their complaints against such desecration.

Senator Wade is to meet me at this place on Tuesday or Wednesday of next week, when, without regard to local interest, and with the consent of the authorities at Columbus, a comfortable and suitable location for a camp will be agreed upon. The men and the persons recruiting for our Regiment will be duly notified. Those who have enlisted, or who intend to enlist, are assured that a comfortable camp will be selected, and while preparing for active service, their reasonable wants shall be attended to. In the mean time those persons having recruiting papers on our recommendations, are requested to keep me informed at this place, by letter, of their success, and when they will be ready for camp. Postage need not be paid on letters to me. It does appear to me that even the loyal people of the State do not yet fully realize their duties and obligations to the brave men now in service and in preparation therefor. Fathers, mothers, brothers, sisters, can you give the comfort of your homes and cheerful fires, and have no thought or care for the soldiers shivering in camp, who have perished their lives to protect and defend their homes from desecration? Let each young lady on the Reserve knit at least one pair of woolen socks, and send to Mrs. Rogers, President of the Soldiers' Aid Society, at Cleveland. Ladies should in every town and village form auxiliary aid societies, and send in contributions to Cleveland, and for any particular regiment, but for soldiers generally. Read if you can without a tear the accounts from the camps in Western Virginia of the suffering of our brave men during the inclement season.

JOHN HENRICKS.

LARGE FREIGHT BUSINESS.—The Lake Shore Railroad is, at the present time, transporting from eighty to one hundred car loads of freight daily from the east, for the south and west.

Card from Capt. John Brown, Jr.

Editor:—A rumor is current that my company of "sharpshooters" is about to disband from lack of sufficient numbers to organize a company. This rumor I wish to controvert through the medium of your columns and the columns of all papers friendly to my success in raising this company. The above rumor has gained some credence chiefly from two causes.

First cause: It has been industriously circulated by designing men, who are at least disguised accessories, that my company is a mere independent guerrilla band, notwithstanding I have over my own name emphatically stated that the company is for United States service for three years or the war in the Regiment of Col. Montgomery, Brigade of Gen. Lane, and Division of Major General John C. Fremont.

Second cause: In consequence of the proclamation of Gov. Curtis, of Pennsylvania, giving effect to the Pennsylvania law of May last, which forbids the citizens of that State to join and serve in Regiments not belonging to that State, some twenty of my best riflemen, whom I had enlisted and transported to Cleveland from the head waters of the Allegheny river, though enlightened prior to the Governor's proclamation, got frightened by the penalties of the Pennsylvania law, and left my company and returned home. Yet Messrs. Editors, in spite of these discouraging circumstances, I have yet left from sixty to seventy men, good and true, and the places of those who have left are rapidly being filled.

Early in September last I proposed to the Secretary of War, to raise a company of one hundred riflemen, to serve as above specified. Not receiving an immediate reply I made the same proposition to Gen. Fremont. An acceptance of the company finally came from Secretary Cameron, with the proviso that it should be in readiness for marching orders Sept. 2nd. The company was also accepted by Gen. Fremont. On the 21st September, I telegraphed Gen. Fremont that the company had just gone into camp of temporary rendezvous at Cleveland. Since then, have arisen the above-named causes for a rumor, which still does not prevent ultimate success.

The chief expense of recruiting this company has thus far come out of my very limited means. Perhaps in the end I may get it back from the Government, perhaps not, since it remains to be proved whether or not we are to have a Government. At least for the present, I very much need the "material aid" which I know many of my friends can furnish. I need it now, and perhaps more than I ever shall again. I am aware gentlemen are now being peculiarly kind in support of this war. But I would say these are and must be bleeding times, if we would save anything we have that is worth preserving.

Faithfully yours, JOHN BROWN, JR.

Proclamation by the Governor.

STATE OF OHIO, EXECUTIVE DEPARTMENT, Columbus, Oct. 11, 1901.

To the Military Committee of the State.

The Quartermaster General of the United States, by his official channels, dated Oct. 1, 1901, communicates the fact that Government cannot supply a sufficient number of blankets to meet the wants of the volunteers.

The appropriation by our Legislature, in aid of the United States, having been exhausted, the State authorities are compelled to rely chiefly upon the General Government, to obtain and in other respects provide for the comfort of Ohio Volunteers.

The inability of the Federal authorities to furnish blankets to our soldiers, whose health and efficiency are threatened, leaves no alternative to your State's Executive but a direct appeal to the people.

In addition to the duty which you are already charged to aid in the procuring of blankets for recruits, you are hereby specially directed to solicit contributions from the people of your respective Districts for our volunteers in the field and to supply deficiencies in camp. You will assist to them without delay, and will receive all donations of woolen shirts, drawers, socks, gloves and blankets, and will purchase, at reasonable rates, all the blankets which in your judgment will be serviceable, selecting such as are nearest to the army standard. You will communicate to me the names and places of residence of all the donors, and will forward to the Quartermaster General at Columbus all the goods you may receive or purchase. You will do this promptly and generously, and will make every effort to secure contributions from the people of Ohio to our noble army are the best assurance of their readiness to do all in their power for its protection and support.

WM. DENNISON, Governor of Ohio.

THE "CLEVELAND GHOST" GONE TO HELL. KANSAS, Pa., Oct. 12, 1901. It is no doubt the same as referred to much excitement in this city last spring. The Pittsburgh Chronicle has the following:

A GHOST TROUPE.—An itinerant ghost of variable form and size, has been troubling the denizens of Harrisburg for several nights past. Last Sunday night, a young man was walking on Third street, when he suddenly beheld the ghost in a field to his right. The figure, he says, was ten feet high, and moved silently and noiselessly along.

Heard nothing more until he found himself lying on the ground, the ghost nowhere to be seen.

GREAT SPEED IN A SEA-GOING STEAMER.—It appears that the South Eastern Victoria, built by Messrs. Samuda, with engines by Messrs. Penn, has attained remarkable speed on her first trip from Gravesend to her station at Folkestone, preparatory to her employment in the company's daily service between Folkestone and Boulogne. The voyage, which is stated to give the highest speed ever attained by any vessel over a similar distance, was performed in three hours and fifty-two minutes, giving at the total distance of eighty-one statute miles an average speed of 21.4 statute miles per hour, equal to about 18.6 knots. This included the assistance received from the tide, estimated by the pilot at under two miles.—London Express.

The steamer Western Metropolis, of the Cleveland and Buffalo line, will make that speed every trip, and knock nothing of it. She is said to be the swiftest boat known.

ARMY FRIGATES.—The following shipmaster of Army Stores, etc., was sent forward from the General Eastern Freight Depot in this city to-day.

To Capt. Dickerson, Assistant Quarter Master, U. S. A., Cincinnati, twenty-one bales Army Blankets—12,076 pounds.

To U. S. Subsistence Department, St. Louis, Mo., seventeen tons of Sugar.

To Col. J. Symington, Allegheny Arsenal, Pittsburgh, Pa., two Army Forges, and timbers.

To Gen. Robert Anderson, Jeffersonville, Indiana, thirteen cases horse equipment, 2,800 pounds.

JOHN HENRICKS.

FROM WESTERN VIRGINIA.—A private of the 8th Ohio Regiment, who left Romney on yesterday morning, passed through this city this morning. He reports that on Thursday of this week firing was heard in the direction of Winchester the greater portion of the day, and he has no doubt that a battle was being fought in the vicinity of Winchester, and that was the general impression at Romney. The Federal forces in the vicinity of Winchester are under command of Major General Banks.

PERSONAL.—D. W. Brooks, Esq., of the late firm of Brooks & Ford, of this city, has removed to Detroit, Mich., and we are pleased to announce, his flattering prospects for a successful practice in the "City of the Straits. Mr. B. is a lawyer of superior talents, and will make his mark in the location he has selected.

THE CLEVELAND, PAINEVILLE AND ASHTABULA RAILROAD is the most profitable investment of capital in this whole land. If it is not, it must be the next. It is a good enough at all events. We are credibly informed that during the past summer, month have been in excess of last year, have one, August, which fell a little short.

The Cleveland, Painesville and Ashtabula Railroad is the most profitable investment of capital in this whole land. If it is not, it must be the next. It is a good enough at all events. We are credibly informed that during the past summer, month have been in excess of last year, have one, August, which fell a little short.
